- 3) Open phpmyadmin in browser (url: <http://localhost/phpmyadmin/>) Notes: Remember start the WampServer.

- 4) Login to phpMyAdmin with username: 'root' and no password.

- 5) Go to the import page.

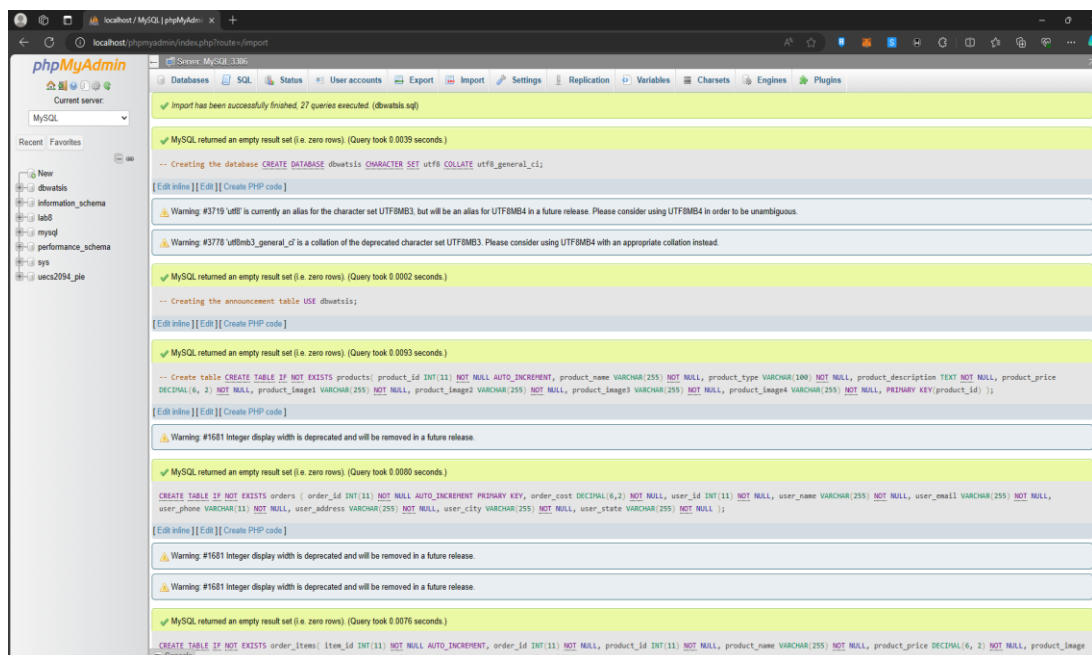

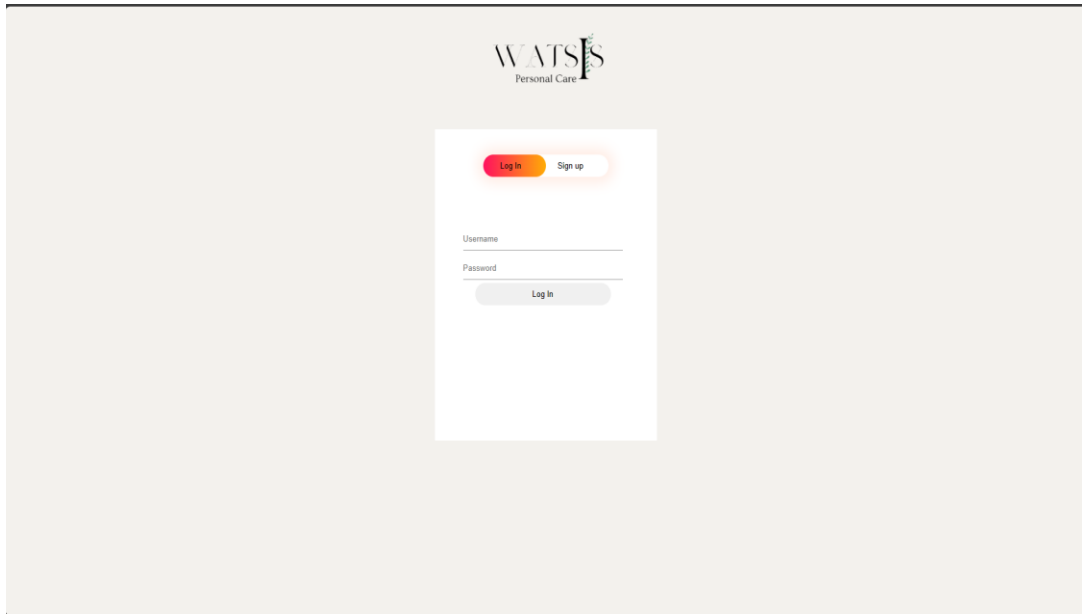

6) Import the dbwatsis.sql file.

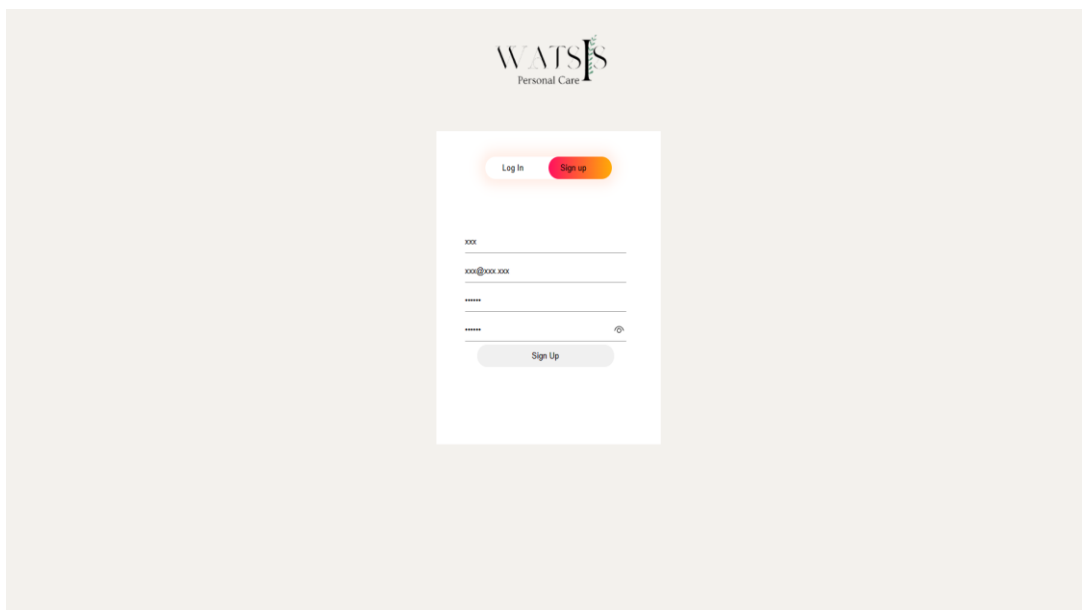

7) If the file was imported successfully, it will be shown as the picture below.

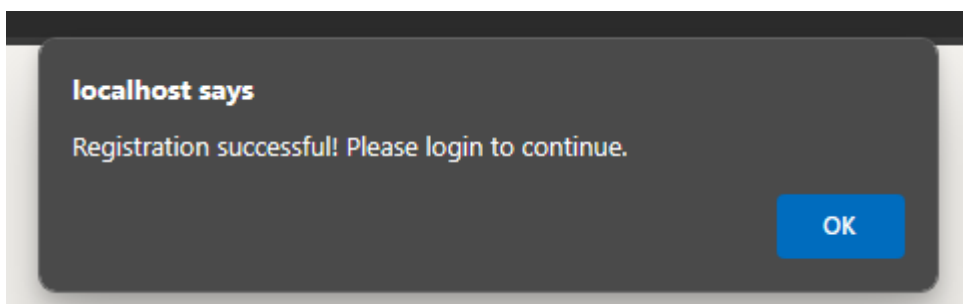

8) Run the signupform.php in your browser.

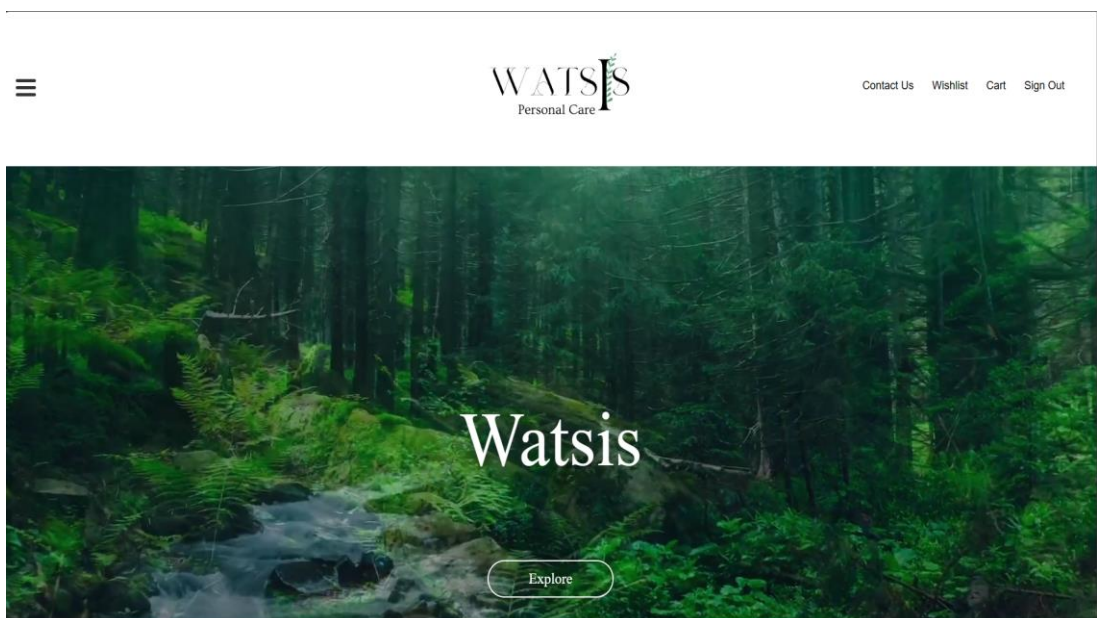

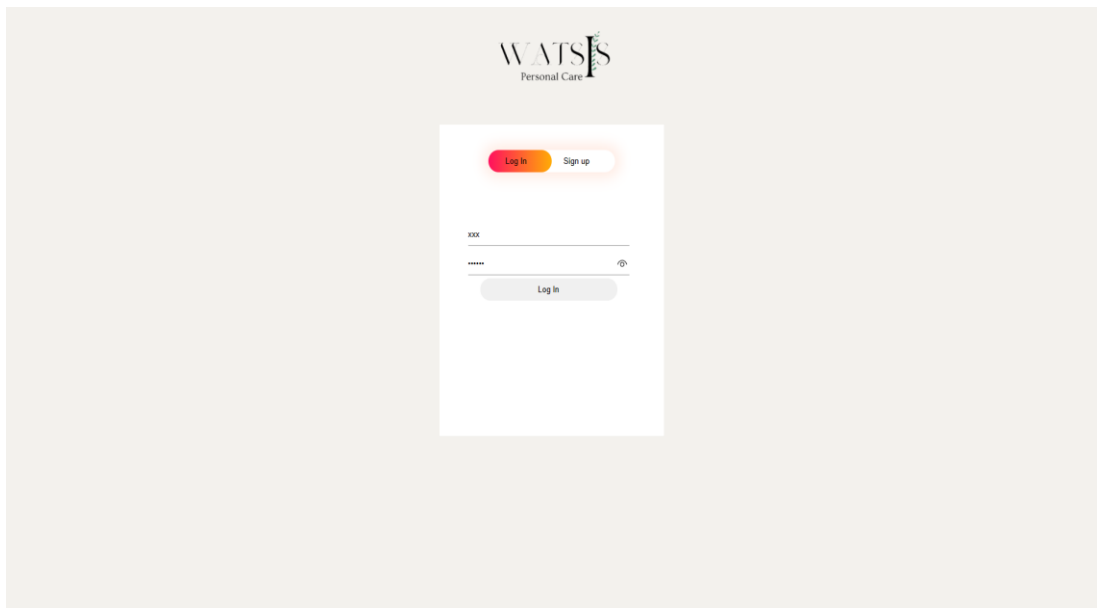

9) Go to the sign-up page and sign up your Watsis account.

10) If the account was created successfully, an alert message will pop out

11) Login to the Watsis website by using the username and password created just now.

12) Now you are free to use the Watsis website.
